Response to Arguments

Applicant's arguments, filed 30 October 2007, with respect to the rejection of claim 13 under 35 U.S.C. 112, 2nd Paragraph have been fully considered and are persuasive. The rejection of claim 13 has been withdrawn since applicant stated in the remarks the interpretation that should be considered for the limitation drawn to the means for selectively controlling the coupling member at the other of the first and second sides of the lock.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Although the references of record show some similar features of applicant's claimed device, they fail to show or teach the claimed invention, wherein the first torsion unit if formed with a recess that is shaped to receive a part of the selecting member when the selecting member is installed in the lock on the first side of the lock for preventing turning of the first torsion unit relative to the follower. The examiner believes that there is no proper motivation to combine the references of record to produce applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alyson M. Merlino whose telephone number is (571)
